

P R I C E G U I D E

We recommend a pre-scan evaluation & consultation with John. He will help you decide on the best type of scan based upon your output goal & an inspection of item to be scanned. The quality of your item to be digitalized - whether it be negative, transparency, print, one of a kind artwork, etc. - along with the type and size of the print you desire - determines which method of scan is best for your job/project.

Scans

Drum Scans		Direct Digital Capture of Flat Art		Flatbed Print Scans	
< 25 MB	\$25	0 – 60 MB	\$85	< 25 MB	\$25
